Business field

Manufacturing and trading business.

Business activities

Main business activities of the Company include:

- Manufacturing batteries and accumulators;
- Selling by wholesale kinds of batteries, raw materials for battery production;
- Real estate business, land use rights owned by the owner or leased, includes only: renting workshops, working offices, warehouses;
- Importing and exporting of raw materials, battery products and machinery, equipment for production and business.

Corporate structure

The subsidiary of the Company is branch in Ho Chi Minh City with main activity of trading batteries.

2 . ACCOUNTING SYSTEM AND ACCOUNTING POLICY**2.1 . Accounting period and accounting currency**

Annual accounting period commences from 01 January and ends as at 31 December.

The Company maintains its accounting records in VND.

2.2 . Standards and Applicable Accounting Policies*Applicable Accounting Policies*

The Company applies Corporate Accounting System issued under the Circular No. 99/2025/TT-BTC dated 27 October 2025 by the Ministry of Finance and the Circular No.

Declaration of compliance with Accounting Standards and Accounting System

The Company applies Vietnamese Accounting Standards and supplementary documents issued by the State. Financial Statements are prepared and presented in accordance with regulations of each standard and supplementary document as well as with current Accounting Standards and Accounting System.

2.3 . Basis for preparation of Interim Financial Statements

Interim Financial Statements are presented based on historical cost principle.

Interim Financial Statements of the Company are prepared based on summarization of transactions incurred, then recorded into accounting books of dependent accounting entities and at the offices of the Company.

In the Company's interim financial statements, internal transactions and internal balances related to assets, capital sources and internal receivables and payables have been fully or partially eliminated.

2.4 . Financial Instruments*Initial recognition**Financial assets*

Financial assets include cash, trade and other receivables, loans, and short-term investments. At the time of initial recognition, financial assets are measured at their purchase price/issuance costs plus other costs directly attributable to the acquisition and issuance of the financial assets.

Financial liabilities

Financial liabilities of the Company include borrowings, trade payables, other payables and accrued expenses. At initial recognition, financial liabilities are determined by issuing price plus other expenses directly related to the issuance of those liabilities.

Subsequent measurement after initial recognition

Financial assets and financial liabilities have not been measured at fair value at the ending date of the accounting year as required by Circular No. 210/2009/TT-BTC and other applicable regulations to presenting the financial statement and disclosing information to financial instruments, but the Company does not provide equivalent guidance for the assessment and recognition of fair values of financial assets and financial liabilities.

2.5 . Foreign currency transactions

The foreign currency transactions during the year are translated into Vietnam Dong using the real exchange rate ruling at the transaction date.

Real exchange rate when revaluing monetary items denominated in foreign currencies at the reporting date of the Interim Financial Statements is determined on the following principles:

- For asset accounts, applying the bid rate of the commercial bank where the Company regularly conducts transaction;
- For foreign currency deposited in bank, applying the bid rate of the bank where the Company opens its foreign currency accounts;
- For liability accounts, applying the offer rate of the commercial bank where the Company regularly conducts transaction.

All exchange differences arising from foreign currency transactions in the year and from revaluation of

2.6 . Cash

Cash comprises cash on hand and demand deposits.

2.7 . Financial investments

Investments held to maturity comprise term deposits held to maturity to earn profits periodically and other held to maturity investments.

Equity Investments in other entities comprise investments in equity instruments of other entities without having control, joint control, or significant influence on the investee. These investments are initially stated at original cost. After initial recognition, these investments are measured at original cost less provision for devaluation of investments.

Provision for diminution in value of investments held for long-term (not classified as trading securities) and without significant influence on the investee is made at year-end: unspecified investments fair value at the reporting time, so the provision is based on the Financial statements at the time of making provision of the investee.

With regard to investments held to maturity: the provision for doubtful debts shall be made based on the recovery capacity in accordance with statutory regulations.

2.8 . Receivables

The receivables shall be recorded in details in terms of due date, entities receivable, types of currency and other factors according to requirements for management of the Company. Receivables are classified as short-term and long-term in the Financial statements based on the remaining maturity of the receivables at the reporting date.

The provision for doubtful debts is made for receivables that are overdue under an economic contract, a loan agreement, a contractual commitment or a promissory note and for receivables that are not due but difficult to be recovered. Accordingly, the provisions for overdue debts shall be based on the due date stipulated in the initial sale contract, exclusive of the debt rescheduling between contracting parties and the case where the debts are not due but the debtor is in bankruptcy, in dissolution, or missing and making fleeing.

2.9 . Inventories

Inventories are initially recognized at original cost including purchase price, processing cost and other costs incurred in bringing the inventories to their location and condition at the time of initial recognition. After initial recognition, at the reporting date, inventories are stated at the lower of cost and net realizable value.

Net realizable value is estimated based on the selling price of the inventory less the estimated costs of completion and estimated costs to make the sale.

The cost of inventory is calculated by first in first out method.

Inventory is recorded by perpetual method.

Method of determining the value of work in progress at the end of the year: the cost of production in progress is aggregated according to the cost of main raw materials for each type of unfinished product.

Provision for devaluation of inventories made at the end of the period is based on the excess of original cost of inventory over their net realizable value.

2.10 . Fixed assets

Fixed assets (tangible and intangible) are initially stated at the historical cost. During the using time, fixed assets (tangible and intangible) are recorded at cost, accumulated depreciation and carrying amount.

Value after initial recognition

Depreciation is provided on a straight-line basis. Depreciation period is estimated as follows:

- Buildings, structures	05 - 30 years
- Machine, equipment	05 - 10 years
- Vehicles, Transportation equipment	06 - 10 years
- Office equipment and furniture	03 - 05 years
- Managerment software	03 - 05 years

2.11 . Construction in progress expenses

Construction in progress expenses includes fixed assets which is being purchased and constructed as at the balance sheet date and is recognised in historical cost. This includes costs of construction, installation of equipment and other direct costs.

2.12 . Operating lease

The expenses incurred but related to operating results of several accounting periods are recorded as prepaid expenses and are allocated to the operating results in the following accounting periods.

The calculation and allocation of long-term prepaid expenses to operating expenses in each accounting period should be based on the nature of those expenses to select a reasonable allocation method and criteria.

2.13 . Payables

The payables shall be recorded in details in terms of due date, entities payable, types of currency and other factors according to the requirements for management of the Company. Payables are classified as short-term and long-term in the Financial Statements based on the remaining maturity of the receivables at the reporting date.

2.14 . Borrowings

Borrowings shall be recorded in details in terms of lending entities, loan agreement and terms of borrowings and finance lease liabilities. In case of borrowings or liabilities denominated in foreign currency, they shall be recorded in details in terms of types of currency.

2.15 . Borrowing costs

Borrowing costs are recognized into operating costs during the period, except for which directly attributable to construction or production of unfinished asset included (capitalized) in the cost of that asset, when gather sufficient conditions as regulated in VAS No. 16 "Borrowing costs". Beside, regarding loans serving the construction of fixed assets, investment properties, and the interests shall be capitalized even if the construction duration is under 12 months.

2.16 . Accrued expenses

Accrued expenses include payables to goods or services received from the suppliers or provided for the customers during the reporting period, but the payments for such goods or services have not been made and other payables such as annual leave salary, expenses arising from seasonal cessation of production, interest expenses, etc. which are recorded as operating expenses of the reporting period.

The recording of accrued expenses as operating expenses during the year shall be carried out under the matching principle between revenues and expenses during the year. Accrued expenses are settled with actual expenses incurred. The difference between accrued and actual expenses is reverted.

2.17 . Owner's equity

Owner's equity is stated at actually contributed capital of owners.

Share premium is recorded at the difference between the par value with costs directly attributable to the issuance of shares and issue price of shares (including the case of re-issuing treasury shares) and can be a positive premium (if the issue price is higher than par value and costs directly attributable to the issuance of shares) or negative premium (if the issue price is lower than par value and costs directly attributable to the issuance of shares).

Retained earnings are used to present the Company's operating results (profit, loss) after corporate income tax and profit appropriation or loss handling of the Company.

Dividends to be paid to shareholders are recognised as a payable in Statement of Financial position after the announcement of dividend payment from the Board of Management and announcement of cut-off date for dividend payment of Viet Nam Securities Depository and Clearing Corporation.

2.18 . Revenues

Revenue is recognized when it is probable that the economic benefits will flow to the Company which can be reliably measured. Revenue is determined at the fair value of the amounts received or to be received after deducting trade discounts, sales discounts, sales returns. The following specific recognition criteria must also be met when revenue is recognized:

Revenue from sale of goods

- The majority of risks and benefits associated with the right to own the products or goods have been transferred to the buyer;
- The company no longer holds the right to manage the goods as the goods owner, or the right to control the goods.

Revenue from rendering of services:

The percentage of completion of the transaction at the Balance sheet date can be measured reliably.

Financial income

- Revenue arising from the used by the others of entity assets yielding interest, royalties and dividends shall be recognised when:
- It is probable that the economic benefits associated with the transaction will flow to the entity;
- The amount of the revenue can be measured reliably.

2.19 . Revenue deductions

Revenue deductions from sales and service provisions arising in the period include: Trade discounts, sales allowances and sales return.

Trade discounts, sales allowances and sales returns incurred in the same period of consumption of products, goods and services are adjusted a decrease in revenue in the incurring period. In case products, goods and services are sold from the previous period, until the next period are incurred deductible items, Company records a decrease in revenue under the principles: If incurred prior to the issuance of Financial Statements then record a decrease in revenue on the Interim Financial Statements of the reporting period (the previous period); and if incurred after the release of Interim Financial Statements then record a decrease in revenue of incurring period (the next period).

2.20 . Cost of goods sold and services rendered

Cost of goods sold and services provided is the total cost incurred of finished products, goods, materials sold and services provided to customers during the period, recorded in accordance with revenue generated during the period and ensuring compliance with the principle of prudence. Cases of material loss exceeding the norm, costs exceeding the normal norm, lost inventory after deducting the responsibility of the relevant collective or individual... are fully and promptly recorded in the cost of goods sold during the period.
